Profile

UX Design student focused on service design, research and AI-assisted design. Looking for a graduation internship from February to June 2027, ideally with an AI-friendly company that moves fast and works with new tools.

Education

Aug 2024 – Jun 2027	The Hague University of Applied Sciences, Netherlands Bachelor of Communication and Multimedia Design
Apr 2023 – Jan 2024	Google Professional UX Design Certificate Online Certificate — user research, prototyping, information architecture, and interaction design.
Apr 2017 – Jun 2020	Nagoya International School, Japan International Baccalaureate Diploma

Selected Projects

Business & Website From Scratch Built a business from the ground up, including its website, covering branding, positioning, and go-to-market. It is a personal project that shaped my interest in design and business thinking.
AI-Assisted Website Build Vibe-coded a website using AI tools end to end, and implemented reCAPTCHA, a privacy policy and other safety features. The project sharpened how I balance speed with responsible design when working alongside AI.

Experience

Jul 2023 – Dec 2023	lass machen GmbH — Internship Completed a 6-month web design and SEO internship at a dynamic small company, contributing to visual design projects while also engaging in coding tasks, fostering a well-rounded skill set in both the creative and technical aspects of web design.
2020 – 2023	Exploring Interests Traveled and explored different interests before settling on UX design. Completed The Odin Project's HTML and CSS fundamentals course alongside this.
